OBJECTIVE

Looking for a challenging role in a reputable organization to utilize my technical and analytic skills in business intelligence for the growth of the organization as well as to enhance my knowledge on new emerging trends and cutting edge technologies in the business intelligence sector.

PROFILE SUMMARY

 Has a total of twelve (12) years extensive working experience in Information Technology, primarily in Business Intelligence. Worked with 12 different clients in 8 industries (Logistics, Energy, Insurance, Telecommunications, Utilities, Health, Retail and Banking).

 Implemented End-to-end projects with requirements gathering, analysis, development, administration and upgrades using SAP BusinessObjects and other reporting and analyticstools in the Philippines and abroad.

 Designed and developed BI architecture from data sourcing all the way through to the end target data structures and presentation of data through dashboards and reports using cutting-edge tools and methodologies.

 Conducted requirements gathering, analysis and thorough documentation as a business analyst

 Worked as a Business Intelligence (BI) professor in Polytechnic University of the Philippines .
